The new **LITTLE MARCUS 58R** is ready to replicate the worldwide success of our Marcus Miller signature heads, we introduced few years ago. It is the result of the meeting between **Marcus Miller** — renowned for his groundbreaking style and trademark sound— and **Marco De Virgiliis**, considered an innovator, being the first pioneer introducing lightweight, portable, powerful and great sounding bass heads and cabinets. As for the previous version, it has an amazing **warm** and **natural sound**, **clear definition**, **punch** and **dynamic**, respecting the priority of tone like all the Little Mark heads, plus a new tone setting with **5-band EQ** on **EQ1**, from ULTRALOW to HIGH and the two new **Old School** and **Millerizer filters** featured on **EQ2** tailored together with Marcus, allowing to quick obtain a vintage tone or an amazing slap sound. The **new bi-band limiter** featured on this amp responds faster and more dynamically to your playing. It's paired with a **500W** power amp, providing **impeccable bass frequency reproduction** thanks to our **MPT** proprietary amp specifically designed for bass. The new **LITTLE MARCUS 58R** amp new design features all the connections and controls on the front panel leaving on the rear panel only the speaker outs and AC power socket, offering optimal ergonomics and making everything more practical. All in an **high build quality** and **ultralight new chassis** for a super portable package that weights only **2,17Kg/4.78lbs**.

### SUGGESTED SELLING POINTS

#### > EQ 1 NEW TONE SETTING / EQ2 FILTERS

The LITTLE MARCUS 58R has simple, intuitive and effective controls as on the previous Little Marcus head series, with best tone choices thanks to the five bands on EQ1, from ULTRALOW to HIGH. An improved versatility is provided by a new tone setting tuned to offer a more defined, rich and dynamic sound that easily cuts in the mix. The new Old School and Millerizer filters setting was developed together with Marcus to allow a wide range of tone, from vintage to Marcus unique slap voice. EQ1 and EQ2 can be turned ON/OFF via optional footswitch.

#### > BI-BAND LIMITER

Our new bi-band limiter responds faster and more dynamically to your playing than traditional limiters do and lets your high end "breathe" for a more natural sound. It makes our amp heads the best choice for anyone who enjoys a quick, punchy attack at high volumes.

#### > AMAZING POWER TO WEIGHT RATIO

State of the art and technology with an amazing power to weight ratio. The LITTLE MARCUS 58R amp boasts 500W of power and only weights 2,17Kg/4.78lbs

#### > MODERN CLASSIC WINNING AESTHETIC

This new amp features all the connections and controls on the front panel including a convenient mute switch, along with the Line Out level control knob that allows for precise control of the signal sent to the mixer/ PA with Pre-Post EQ switch to set the XLR output's routing to before or after your EQ as required, leaving on the rear panel only the speaker outs and AC power socket, making everything more practical and with a winning aesthetic.

#### > MADE IN ITALY

Not just technology but also GLOCALIZATION and Made in Italy. Glocalization is for Markbass a key word, intended as the use and optimization of local resources to be competitive on the global market.

#### > ECO-FRIENDLY

It's time to think about the future; focus on the product and on the natural environment that surrounds it.

#### > BEST QUALITY, RIGHT PRICE

The new series of products MB58R has an incredible strength point: high quality and innovation at the right price.
