8" Active subwoofer

IS-48

Active Entertainment System

Portable, practical, powerful and, when needed, eye catching - the new IS-48 Active Entertainment System is a real 'party animal'....perfect for mobile performers and entertainers.

The system is quickly constructed from 3 interlocking column elements and an 8" active subwoofer. This 8" active subwoofer unit is the heart of the system and delivers the amplification power up to the full range column element, and also hosts the versatile internal mixer and media player module.

Two of the column elements are for dynamic LED lighting effects. With four eye-catching modes (plus an 'LED OFF' mode) the IS-48 is a real 'party animal'.

With SD card, USB and Bluetooth inputs plus IR Remote control, the system caters for all kinds of media... for all kinds of events. With easy TWS system pairing, its also possible to wirelessly connect 2 units of IS-48 together for a full stereo system.

Analogue mic and line inputs and internal mixing functions also mean that the system is versatile enough for anyone to join in!

**IS-48**

100 W Continuous	200 W Peak

WHAT MAKES IT GREAT?

- ☑ 8" active sub with 4 x 2.5" Full Range drivers
- ☑ 2 x LED Elements with 4 light modes (inc. 'Off')
- ☑ Bluetooth, SD and USB inputs. TWS Pairing.
- ☑ 2 x mic / 3 x line inputs
- ☑ IR Remote control
- ☑ Internal echo effect
- ☑ Easy setup and....easy pack away!
