## Specifications

Weight	15g
Dimensions	180mmH x 70mmW x 70mmD

## Features

The DeadCat GO is a furry wind cover for the VideoMic GO, designed for use in windy environments.

Its artificial fur is specially designed so as to minimise wind noise while remaining acoustically transparent.

It fits over the whole microphone, including where the cable enters the microphone, so should be fitted after the cable is connected to the microphone.
